

With over a decade of software engineering experience, I currently serve as a Senior Software Engineer (or Architect) proficient in designing and implementing smart software solutions, leading teams, and achieving exceptional outcomes. Proficient in a variety of technologies and languages, with a knack for quick adaptation to emerging languages and frameworks. Dedicated to nurturing team growth and fostering a positive work environment. Passionate about solving complex problems, driving innovation, and continuously enhancing efficiency through learning.

WORK EXPERIENCE

Senior Consultant / Architect

Slalom Local 2020-2023 | Slalom_Build 2023-2024

- Works autonomously with dev, product, UX, and QE teams to effectively handle small and large-scale projects in a wide range of industries.
- Builds innovative, highly scalable products using the latest technologies, approaches, and CI/CD best practices.
- Successful at leading cross-functional teams, driving projects to successful completion, and effectively communicating with stakeholders.
- Owned to completion, multiple application feature implementations and re-designs which allowed forward-moving action with valuable stakeholders.

Senior Software Engineer | 2023-2024

Charter Communications / Spectrum (Slalom Consultant)

- Developing the Spectrum Reach multiscreen advertising product using Angular, Typescript, Python, Postgres, Snowflake, SQL, and more.
- Unifying disparate data sources and applications into a multiscreen, audience-based advertising platform that will use Spectrum Reach's proprietary data to create smart proposals for clients.
- Alongside everyday developer tasks, assists in getting new team members familiar with our codebase and best practices, while mentoring junior developers along the way.

Python Engineer | 2022-2023

Nutrien (Slalom Consultant)

- Python/Data developer for a back-end ETL (extract, transform, load) process built around AWS
- Lambdas and Step functions written in Python using Boto3 and SQL
- Microservices utilizing AWS CDK, Cloudformation, AWS Lambda, AWS AppSync, AWS SNS, AWS SQS, Redis Streams, and RDS
- Postgres relational database.
- Heavy role in cross-team communication and integrations while responsible for product stakeholder communications.

Slalom Consultant in other industries 2020-2022 | Want to know more? I'd love to discuss.

Software Engineering Team Lead | September 2017 - September 2020

ReadyTalk (Premier Global Services)

- Team Lead of an agile SE team that implemented and enhanced an enterprise-grade UCaaS (Unified Communications as a Service) platform.

Software Engineer | February 2016 - September 2017

ThinkTank

- A responsible member of an agile development team that implemented a cloud-based digital engagement system.

TECHNOLOGIES

- Angular
- NgRx/RxJs
- Typescript
- Python
- GraphQL
- Jest/Jasmine/Gherkin
- REST APIs
- GraphQL APIs and Schemas
- Microservices
- API Gateways
- AWS Services and designs

Software Engineer | October 2011 - February 2016

Tempus Nova

Software Engineer I | 2011

Northrop Grumman

EDUCATION

Bachelor of Science in Computer Science

New Mexico State University, Las Cruces, NM | May 2011

MENTIONS

AWS Developer Associate Certified 2023

APPLICABLE SKILLS

- Software solution building and architecting
- Software development lifecycles (Agile, SAFE, etc)
- Technology/Infrastructure Integrations and Cloud Integrations
- CI/CD Best Practices and Pipeline Maintenance
- Dev leadership/mentorship
- Strong focus on fostering team members' growth and ensuring a collaborative and positive work environment
